A LEGACY OF EVOLVING ELEGANCE

It all began in 1993, when Acme Cera Art set out to redefine bathroom spaces with functional and stylish accessories. Over the years, what started as a focused journey soon evolved into a passion for elevating the everyday. From 1993 to 2014, Acme Cera Art built its name on quality bathroom accessories. As the vision grew, so did the product line expanding into premium sanitary ware in 2014, blending durability with design-forward thinking. But the real transformation came in 2016, when a new chapter began: Sunstone was born a brand that would carry the soul of innovation forward. Under this new name, the finest products took shape, each piece echoing elegance and modernity. By 2021, Sunstone took a bold step into the world of designer tabletop washbasins, combining artistry with everyday utility. Today, Sunstone represents more than bathware it's a statement of style, refinement, and thoughtful living.
